Education

B.Tech in Computer Science Engineering (AKTU)	2024 - 2028
ABES Engineering College, Ghaziabad	CGPA – 7.61
Class 12th (CBSE)	2023
Jamuna Ram Memorial School, Ballia	73.4%
Class 10th (ICSE)	2021
Holy Cross School, Ballia	95.66%

Technical Skills

- **Languages:** C, C++, Java, JavaScript, Python
- **Core CS Subjects:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOPs), Operating Systems (OS), Database Management Systems (DBMS)
- **Frontend Development:** HTML5, CSS3, JavaScript, Tailwind CSS
- **Design & Creative Skills:** Figma, Graphic Design, Video Editing
- **Databases & Query Language:** SQL, MS Excel
- **Developer Tools:** Git, GitHub, VS Code, Firebase, Netlify, Clerk
- **Currently Learning:** Backend Development, Advanced DSA
- **Professional Skills:** Problem Solving, Analytical Thinking, Teamwork & Collaboration, Communication, Time

Projects

KrishiMitra AI :

JUNE 2026

- Built an AI-powered agriculture assistant for crop-disease analysis, treatment guidance, and farmer recommendations using full-stack development and Gemini API integration.
- Implemented AI inference workflows, REST API integration, responsive UI, and error handling for reliable end-to-end user interactions.

FocusLens -

MARCH 2026

- Developed a real-time attention monitoring platform using Next.js, TypeScript, Clerk, and face-api.js for blink, face-orientation, focus, posture, and fatigue detection.
- Added focus scoring, distraction alerts, session logging, streaks/XP, analytics, achievements, and a monthly heatmap dashboard.

Hostel Website :

NOV 2025

- Developed a responsive hostel-information website using HTML5, CSS3, and JavaScript with a streamlined user interface and mobile-friendly layout.
- Improved navigation and usability through responsive components, interactive elements, and optimized page structure for a consistent cross-device experience.

Portfolio Website :

JUNE 2026

- Built a responsive React portfolio with Tailwind CSS and Figma, showcasing projects, technical skills, and competitive-programming profiles through a clean interactive UI.
- Integrated dynamic LeetCode statistics and heatmaps, and optimized responsiveness, component structure, and deployment using Git/GitHub and Netlify.

Achievements

- **Competitive Programming (CodeChef):** Solved 150+ problems and participated in 25+ contests, strengthening problem-solving, implementation, and algorithmic thinking; earned the Problem Solver and Contest Contender badges.
- **DSA Practice (LeetCode):** Solved 150+ problems and participated in approximately 10 contests; earned a 50-Day Badge while practicing Arrays, Hashing, Trees, Binary Search, Dynamic Programming, and related DSA topics.
- **Open Source (GitHub):** Contributed to multiple open-source projects using Git/GitHub, branching, issue-based development, and pull-request workflows; contributions include GDG ABESEC website improvements and GSSoC 2026 participation.
- **Hackathons:** Worked on an AI-based fake identity and document screening prototype during SIH, contributing to backend development, OCR/validation workflows, testing, teamwork, and rapid prototyping.

Certifications

Cloud Computing	NPTEL
Python Essentials 1&2	Cisco Networking Academy

Extracurricular Activities

- **Social Media Head at Trishul Society, ABESEC** - worked across social media, promotions, graphics, video editing, and event creatives.
- **Social Media Team, GDG ABESEC** - contributed to social media activities and later improved the official website through Git/GitHub-based development.
